**Dear Pelican Customer,**

Our story began in a small residential garage in Torrance, California in 1976. Almost five decades later, Pelican Products, Inc. remains the global leader in the design and manufacture of high-performance protective cases.

The first Pelican case was a first-aid kit for divers, and it was so rugged and durable that other customers began to repurpose it to protect their own valuables. This began the expansion of the Pelican product line, one high-quality case at a time.

We are now manufacturing more than 1,000 different case styles, from our classic Pelican™ Protector Case™ Brand Case and Pelican™ Storm Case™ Series lines, to our innovative Pelican™ Air cases. We also offer a wide range of interior organization solutions, including our TrekPak™ divider system, padded dividers, EZ-CLICK™ MOLLE panels, Pick N Pluck™ foam, as well as custom foam interiors that help protect and organize valuable assets.

Our vision at **Pelican is Protecting All That You Value**. All our fantastic Pelican employees are committed to this mantra, because we know that the most valuable thing ever put in a Pelican case is TRUST.

A big source of pride here at Pelican Products, Inc. is the continued support of our loyal customers. On behalf of myself and my fellow Pelican employees around the world, we thank you for your business.

Sincerely,

Phil Gyori

Chief Executive Officer

# PELICAN™ AIR CASE SERIES

# UP TO 40% LIGHTER THAN OTHER POLYMER CASES

Our lightest case with the protection you need.

## THE SCIENCE OF LIGHTNESS

Molded from the next generation of Pelican's lightweight HPX™ resin, a proprietary formula that rebounds without breaking, the honeycomb structural elements are actually stronger than solid polymer material.

## PRESS & PULL™ LATCHES

All Pelican Air models now feature Press & Pull latches, making it easier to securely lock and open your case with a light touch.

## WATERTIGHT

The secret is the tongue-and-groove fit with a polymer o-ring acting as a waterproof seal. Also, our Automatic Pressure Equalization Valve releases built-up air pressure while keeping water molecules out, resulting in a watertight case that is easy to open.

## EASY RIDING

Stainless steel ball bearing wheels (on select cases) last longer and ride smoother. The nylon hub adjacent to the stainless steel resists heat resulting in less wear and tear on the polyurethane tire.

## TESTED

The Pelican™ Air Case design is the result of multiple generations of refinement. This evolution is proven through submergence and other lab tests.

An open, olive-green Pelican R60 utility case sits on a metal workbench. The case is open, revealing a dark interior with a red fabric lining. To the left of the case is a thick, rusty metal chain. In the foreground, a pair of black and red work gloves is visible. To the right of the case, a utility knife with a black handle and a silver blade is lying on the workbench. The background shows a blurred industrial setting with a white metal structure and a red component. The text "PELICAN™ PERSONAL UTILITY CASE SERIES" is overlaid in white, bold, sans-serif font across the center of the image. The case lid has a label that reads "PELICAN" with a logo, "R60", and "BUCK CASE".

## SOLID CONSTRUCTION

The Pelican™ Protector Case™ Brand Case uses an open cell core and solid wall construction, which is actually stronger and lighter than a solid core wall. Travel light with heavy protection.

## DOUBLE-THROW LATCHES

Double-Throw latches are smarter and easier to open: it's the classic 'C' clamp design with a secondary movement that works like a pry bar to start the release and offers plenty of leverage to open with a light pull.

## WATERTIGHT

The secret is the tongue-and-groove fit with a polymer o-ring acting as a waterproof seal. Also, our Automatic Pressure Equalization Valve releases built-up air pressure while keeping water molecules out, resulting in a watertight case that is easy to open.

### PRESS & PULL™ LATCHES

These smooth-opening, patented latches hold tight under pressure and impact with easy-opening performance. Tested to over 400 lbs., yet open with a simple release button.

### MOLDED-IN LOCKABLE HASPS

Twin mating hasp holes on the rim of the case allow padlocks to keep your gear in and thieves out.

### VORTEX® PRESSURE RELEASE VALVE

The automatic pressure release valve prevents vacuum lock, making it easy to open your case even after extreme altitude changes. The microscopic filter blocks water molecules and dust particles so your gear stays clean.

### RUGGED IN-LINE WHEELS

Shielded from dust, dirt and other contaminants – ball bearing wheels provide low-friction, low-drag rolling for easy movement of heavy loads.

\*Select models only.

### DOUBLE-LAYER, SOFT-GRIP HANDLES

When the weather goes south you'll find a secure grip that won't slip. An in-tool vulcanizing process over-molds the grips to the polymer handle for a lifetime of dependable performance.

# SMALL CASES

Perfect for small gear and instruments, with all the features found in our larger cases: strong HPX™ resin construction, Vortex™ valve, and Press & Pull™ latches.

## PICK N PLUCK™ FOAM

An easy, do-it-yourself system for the interior of the case. Layers of foam are pre-scored in 1/2" or 1" cubes. Simply lay your equipment on the foam, tape or chalk to mark the foam, and pluck away. Always allow at least one inch of foam between your equipment and the wall of the case.

We offer replacement foam sets online at [pelican.com](http://pelican.com). Just enter the case catalog number in the search field to view available foam sets.

Solid foam (which can be cut with an electric knife or coping saw) is preferred for oversize items such as long guns. The following cases ship with solid foam instead of Pick N Pluck™ Foam: 1700, 1720, 1740, 1750, 1770, iM3100, iM3200, iM3220, iM3300, iM3410

## TREKPAK™ DIVIDER SYSTEM

## PANEL FRAME AND BEZEL KITS

Many Pelican™ cases can be adapted for use with electronic interface panels by using a Panel Frame (Pelican™ Protector Case™ Series) or Bezel Kit (Pelican™ Storm Case™ Series) accessory. Mount most interface panels (customer supplied) flush with the rim of the Pelican™ Protector Case™ Series or desired area in a Pelican™ Storm Case™ Series, and your technology is ready to go.

A polymer o-ring seals the panel so the base of the case remains watertight, even with the lid open. The mounting bracket, fasteners and o-ring are included in the Panel Frame Kit.

## ELECTRONIC INSTALLATIONS

Many Pelican™ Protector Case™ Series and Pelican™ Storm Case™ Series models allow customization for electronics. Injection molding provides a reliable, durable, ready-to-ship enclosure with consistent dimensions. The copolymer material can be machined, drilled and sanded smooth.

These properties make the Pelican™ Protector Case™ Series and Pelican™ Storm

Case™ Series suitable for use with bulkhead connectors. Attaching equipment to the interior is equally simple using common hardware such as bolts and rivets. The hardware can be made watertight by use of o-rings, rubber gaskets or silicone.

Mounting the entire case to a wall or post is a simple way to create a waterproof control box for field use.

## LID ORGANIZERS

Made of simulated leather or ballistic nylon with nylon zippers. A wide variety of pocket sizes protect and keep your gear organized, and install easily with Velcro® strips (included).

The Pelican™ EZ-Click™ MOLLE Panel is a lid organizer system on steroids- it's a durable panel that uses twist-cam locks to detach from your Pelican™ case for a swift changeout.

## PELI™ QUICK MOUNTS

An alternative to panel frames, Peli™ Quick Mounts attach to the inside case wall using special adhesives. An interface panel can then be mounted on top of the Peli™ Quick Mounts and secured with screws (for Pelican™ Protector Case™ Series models only).

## CUSTOM LOGO SERVICES

Personalize the outside of the case with your company logo or have your name engraved on the nameplate (for Pelican™ Protector Case™ Series models only). Logos can be applied in multiple colors as a Mylar® decal (250 piece minimum) or as a vibrant fade-resistant, scratch-resistant hot-stamped ink.

For prices and further information, please call Pelican Customer Service at 310.326.4700 or toll free at 800.473.5422.

## GET 20% TOUGHER AND HUNDREDS OF ADDITIONAL SIZE OPTIONS: ROTATIONALLY MOLDED CASES

Our rotationally molded cases begin as resin powder, measured and loaded into a mold attached to a biaxial arm. As the mold rotates and heats up, the resin coats the inside of the mold and creates the case. As a result of this process, 20% more resin accumulates in the corners and edges where it is needed most to provide impact resistance. This ensures that your case holds up

against extreme drops and impacts.

Each case is made in the USA and all cases are manufactured to MIL810 spec standards. We have 354 cases sizes combined with 7 different style options that allows us to offer the customer 620 configurable cases styles that satisfy any type of technical packaging requirements..

See [pelican.com](http://pelican.com) for all case styles and sizes.

### SINGLE LID CASES

Rugged protection with detachable lids for easy access.

### RACK MOUNT CASES

Built-in shock absorbing frames protect electronic equipment.

### ISP CASES (INTER-STACKING PATTERN)
