

Hornet ultra-portable pneumatic HEPA vacuum designed specifically for dustless sanding and composites fabrication

This unit is small enough to carry out to the flightline, but packs more than enough power for corrosion control, surface prep, or general cleanup.

The Hornet is incredibly efficient and powerful enough to use with sanders, grinders, and cutting tools

The Hornet has been designed for the removal of coatings containing Hexavalent Chromium (Cr VI), lead, cadmium and other heavy metals, aluminum dust, carbon fiber, ceramic dust, fiberglass and mold. These units are extremely portable, lightweight and feature extra heavy duty components that ensure long life and extreme durability for industrial and military environments.

The Hornet pneumatic HEPA Vacuum incorporates Safe Filter Change unique to Clayton.

This means technicians can open the filter compartment and change the primary vacuum filter without protective gear or exposing other workers and environment to hazardous dust.

All this in a package so small, only 6" in diameter, and so portable that it can be used for deployment or mobile maintenance operations. Shops with central vacuum systems or larger mobile vacuums will find new freedom to perform spot repairs in the hangar or on the flight line, without exposing workers or the environment to hazardous dust.

Small footprint at only
20" x 6" x 6.5" x 10 lbs
(51cm x 15cm x 16cm x 4.5kg)

II 3 D T85° C

Features:

- ATEX certified for use in Combustible Dust Atmospheres
- Recovery capacity 1 quart (1 liter)
- Vacuum and accessories are electrically bonded to ensure conductivity during use
- HEPA filter: Efficiency of 99.97% @ 0.3 μ m (H13)
- Consumes 30-75 CFM @ 90 PSI (user adjustable)
- Includes 1/2" compressed airline with 1/2" industrial interchange fitting
- Quiet at only 77dBA
- Innovative cooling wand, keeps users cool and comfortable while working with the vacuum
- Static conductive air/vacuum hose with sheathing
- Ergonomic backpack harness (not shown) with chest clasp allows vacuum to be securely worn on back
- Tool Control - Shadow-boxed two-color foam for FOD control / prevention
- Rugged Construction - Packaged in an indestructible, lockable, wheeled Pelican Case
- Turn-key Operation upon receipt

Air Powered

User adjustable from 70" to 170" static water lift, and 65 to 85 CFM airflow

Corrosion resistant, aluminum construction

Mil-spec grounding jack allows users to ground vacuum or bond it to an aircraft using a standard flight line grounding cable

Vacuum and sander operate from a single 1/2" compressed air supply line

Differential Pressure Gauge

Compressed air for sander or tool

Self closing vacuum inlet

Non-marring static conductive rubber rails provide static dissipation

Built in compressed air gauge shows system pressure

Compressed Air Line
Conductive / All Stainless Steel Fittings

Hornet Consumables

ACE-1000

Turn-key Dustless Sanding System includes Clayton random orbital sanders with abrasives, backup pads, and protector pads for each.

ACE-500

Complete Dustless Sanding System includes 5" Clayton random orbital sander.

ACE-400

Basic Dustless Sanding System. Customer supplies sander or purchases a Clayton sander separately.

ACE-300

Cleanup Vacuum, great for FOD pickup.

500-400

Hornet vacuum only. All hoses and accessories sold separately.

Use our Hornet Wall Bracket to mount hornets in decontamination or transition areas for personal cleanup. Vacuum slides in and out from the top and gravity holds it in place.
