

# Connector Service Kit for Augusta WESTLAND AW-139

HCT1973A

The tools contained in this kit were selected for maintaining the Augusta AW139 helicopter, equipped with the highest quality tools qualified to meet military specifications for stripping, crimping and terminating wire.

We have created the ideal solution by combining the required connector tooling with our expertise in providing tool control solutions. The result is a complete package of specialist crimping, stripping and terminating tools in a wheeled travel case with precision CNC cut high density foam shadow board inlays to meet the tool control requirements of the aviation industry.

- Eliminate costly and time consuming research
- Ready-to-use kit to maintain your aircrafts wiring system
- Tool Selection Charts provided for easy cross reference of connectors and tooling
- Precision tooling to meet the demands of high reliability electrical systems
- Tools and accessories for building and repairing wire harnesses
- Cutout for every tool and two-coloured foam for easy identification of missing tools, compliant to Part 145 regulations
- Hard foam with rigid, wipeable top layer and optional laser etching
- Dimensions: 581W x 381D x 455H
